LEEDS ACUTE & INTENSIVE CARE CONFERENCE

LACTIC

"Absolutely fantastic conference really beneficial as a new ACCP starting out"

OVERVIEW

We are excited to present the second annual Leeds Acute & Intensive Care Conference. Aimed at intensive care, acute medicine and emergency medicine clinicians, this exceptional programme is designed to deliver high quality education on managing acutely unwell patients.

Following the resounding success of LACTIC 2024, this year promises another outstanding array of experts in their field, providing specialist knowledge tailored into useful, pragmatic and practical information.

TOPICS

- Advanced management of cardiogenic shock
- The haematologist's approach to thrombocytopenia
- High consequence infectious disease
- Approach to empyema from both thoracic medicine and surgery specialists

Venue

The Leeds acute and intensive care conference will take place in the heart of Leeds at the Queens Hotel, located directly adjacent to Leeds Rail Station, there is direct access between the station and the hotel. We would recommend rail transport to this venue where possible.

WHAT MAKES US STAND OUT

Proud to Deliver Accredited Surgical Education

Clockwork Medical is accredited by the Royal College of Surgeons of England, recognised internationally as a gold standard in surgical education.

Confidence
For delegates, this means you can attend our meetings with full confidence that the content, faculty and delivery meet the highest professional standards. It also ensures that our events contribute meaningfully to your ongoing development and CPD requirements.

Trusted
For companies, accreditation offers powerful reassurance. You're aligning your brand with trusted, quality-assured education, endorsed by one of the most respected surgical institutions in the world.

Accreditation is only awarded following a thorough review of our programmes, facilities, and faculty. It's something we're proud of and something that sets our meetings apart.

SKILLS SHOULDER ARTHROPLASTY COURSE

S.K.I.L.L.S
SHOULDER KNOWLEDGE INSTRUCTIONAL LEARNING & LIVE SURGERY

OVERVIEW

Hosted over two dynamic days, the S.K.I.L.L.S course (Shoulder Knowledge Instructional Learning & Live Surgery) is a premier educational event focused on the evolving field of shoulder arthroplasty. Featuring live surgeries from the Royal Berkshire Hospital, this event brings together over 40 shoulder specialists from across the UK and Europe.

This course is designed for both new and experienced surgeons who are eager to gain practical tips and tricks from like-minded colleagues, and to stay at the forefront of upcoming trends in shoulder surgery.

TOPICS

- Cutting-edge debates covering anatomic and reverse shoulder replacement
- Latest technologies including robotics, navigation and custom implants
- LIVE surgical demonstrations with real-time expert commentary
- Operative tips from experienced surgeons
- Practical “tips and tricks”
- Glenoid management
- Surgical planning

Venue

The 2025 conference venue will be held at the Crown Plaza Reading East. The fully refurbished hotel is located directly next to the Winnersh Triangle Station providing easy access to London Paddington in 25-minutes. Situated minutes from the M4, walking distance of Winnersh Triangle Train Station and conveniently located for the Elizabeth Line, London’s newest tube line.

LONDON ELBOW MEETING

OVERVIEW

We are delighted to announce the inaugural London Elbow Meeting 2025, a one-day event designed to advance expertise and collaboration in the field of elbow trauma. This focused meeting will feature consultant-led, case-based discussions, offering a highly interactive learning experience that bridges theory and practice.

Tailored specifically for senior orthopaedic trainees and consultants with a keen interest in the elbow, the course will provide an invaluable platform for exploring complex cases, exchanging ideas, and enhancing clinical decision-making.

TOPICS

- _ Distal Humerus
- _ Radial Head surgical
- _ Coronoid
- _ Proximal Ulna

VENUE

Taking place in the heart of the capital at University College Hospital London's Conference Centre, offering easy links to major national rail services and the City.

BASK REVISION KNEE

> Very informative couple of days, I really appreciated the AHP and coordinators breakout session

OVERVIEW

The Convenors for the 2025 BASK Revision Knee Instructional Course have put together a programme designed to fulfil all the CPD requirements for surgeons performing revision knee surgery. The course is aimed at surgeons performing revision knee surgery, and will cover several core topics, as well as deep dives into specific topics relevant to revision knee.

Following the success of 2024, we will be repeating specific sessions for Early Years Revision Consultants and Fellows/Senior Trainees to discuss the challenges and opportunities being faced. This is an interactive meeting and attendance from all the multidisciplinary team is crucial.

TOPICS

- Deep dive sessions including periprosthetic fractures and how to manage bone loss
- Infection – PJI guidelines and pathways
- Landscape in revision knee replacement
- Pain and the management of the painful knee replacement
- Non surgical pathways
- Bespoke sessions for AHPs and young consultants
- Stems, wedges & augments – indications, tips & tricks including removal

Venue

East Midlands Conference Centre, Nottingham, with ample free car parking, including electric car charges. The venue includes on site accommodation at the Orchard Hotel, complimentary parking, electric vehicle charging points and also has nearby tram links and access to the University's extensive leisure facilities.

> “Your meetings are a walk in the park due to being well organised and an accountable human always contactable”

03 - 04 November 2025, Burton upon Trent

SPORTS KNEE SURGERY

> Excellent and informative 2-day event. Well organised and a great deal of effort has been made to make the conference appealing to all involved with the sporting knee, consultants and physios

OVERVIEW

Sports Knee Surgery 2025 is convened by Tim Spalding, Peter Thompson, Andy Metcalfe, Nick Smith and Feisal Shah. The conference is returning to the Hilton at St George's Park, home of the FA, providing delegates with the opportunity to immerse themselves in the event with accommodation, lectures and the dinner all on site.

Sports Knee provides one of the best resources for the latest information on sports related knee problems, covering state of the art topics and current controversial issues. Twenty two years since the first conference, the challenges in knee surgery continue. Sports Knee Surgery 2025 tackles the most topical issues with national and international speakers.

TOPICS

- Knee surgery – the past, present and future fireside chat with Pete Myers, Tim Spalding & Nick Smith
- Making sense of the meniscus – kinematics & reconstruction
- UK direction – the next steps for cartilage centres
- One stage cartilage repair – New options now real
- Ramp lesions – which to fix and how?
- How can a knee surgeon use AI?
- Can we reduce post traumatic OA - science
- Anterior knee problems – evolving approaches, instability and nightmare situations!

Venue

The Hilton at St Georges Park in Burton-Upon-Trent. This great venue allows delegates to get fully immersed in the conference with the hotel accommodation, conference dinner and lectures all on site. There is a car park at the venue which is free for delegates to use during the conference.

DERBY PARTIAL KNEE MEETING

OVERVIEW

This course is designed for surgeons and senior trainees who wish to learn more about Unicompartmental Knee Arthroplasty, with a view to introduce UKA to their practice, or increase UKA volume.

This interactive course includes presentations, debates, panel discussion and a patient session to provide an overview of the key principles and considerations for UKA. Delegates will have the opportunity to complete dry-bone workshops and learn surgical technique from experienced faculty members.

TOPICS

- Indications and Surgical Approaches
- Crossfire Debate: Fixed vs. Mobile
- A Review of the Registries
- Unicompartmental Knee Arthroplasty vs. Total Knee Replacement

VENUE

Hilton East Midlands Airport, located just off J23a of the M1, four miles from East Midlands Airport.

UNI KNEE SYMPOSIUM

OVERVIEW

This year's meeting returns to Bristol. Our expert faculty panel will be approaching topics such as the role of UKR's in treating conditions such as medial OA whilst considering implant balancing and soft tissue balancing. They will look at the many different robots available to aid in surgery and examine complex case studies bought forward by faculty and delegates alike.

TOPICS

_ The latest in unicompartmental knee research and techniques

_ Group discussion and faculty panels to answer all your questions

_ An international faculty will be joining for a different perspective

_ Network with key industry partners who are supplying the latest technology

Venue

Ashton Gate Stadium in Bristol. Only ten minutes from Bristol Train Station and ample free car parking.

27 - 28 November 2025, Bristol

BRISTOL HIP ARTHROPLASTY COURSE

OVERVIEW

The Bristol Hip Arthroplasty Course is a well known international hip meeting which was initiated by John Newman in the late 1980s. It has since grown in stature and reputation and is now co-convened by Evert Smith, Anthony Ward, Richie Gill, Richard Baker, Mehool Acharya and Michael Whitehouse. It attracts a strong international faculty and is well known for its debates after each session.

The conference aspires to improve current practice and promote clinical excellence as the faculty present their views on issues valid to a hip practice including outcomes, new procedures, materials, bearing surfaces, design, primary and revision hip replacement and their complications. See some highlights of last years meeting by scanning the qr code below!

TOPICS

- New procedures
- New designs
- Primary & revision hip replacements
- Procedural complications
- Radiographic forums
- Chill out & chat sessions

Venue

Bristol Hip will be returning to the Delta Hotel, Bristol City Centre.
Conveniently located, there are easy transport links to the train station, and Bristol Airport. For those traveling by car, the adjacent car park provides easy access to the hotel.

North Hampshire Hospital

BASINGSTOKE KNEE OSTEOTOMY MASTERCLASS

> Excellent course, faculty and facilities. Best parts were the live surgeries, debate between faculty and small group case discussions.

OVERVIEW

The Basingstoke Knee Osteotomy Masterclass returns once again building upon its heritage for being the most established knee osteotomy course in the UK.

BKOM25 aims to promote the principles of knee osteotomy surgery and allow patients to keep their own knee joint for longer.

It is the only course nationally with live surgery allowing you an unprecedented exposure to this cornerstone of joint preservation surgery. BKOM25 helps surgeons seeking to explore and learn about basic knee osteotomy surgery and allow them to introduce it to their practice.

TOPICS

- Live surgery from theatre for both HTO and DFO
- Practical HTO and DFO sawbone workshops
- Planning for osteotomy surgery including software training
- Workshop discussion groups for HTO and DFO

Venue

The Ark conference Centre is located in the grounds of North Hampshire Hospital. There is plenty of parking opposite the centre.

CADAVERIC WORKSHOP

Basingstoke Knee Osteotomy Masterclass

> Very appropriate cadaveric course, excellent faculty and sufficient time to ask questions and explore the relevant dissection

OVERVIEW

Basingstoke Knee Osteotomy Masterclass is delighted to be running a Cadaveric Osteotomy Day, taking place the day after the main Masterclass event.

Each delegate will be paired per limb and guaranteed the opportunity to perform at least one osteotomy under close supervision from the experienced Basingstoke faculty.

Spaces are strictly limited, and the course is designed specifically for Consultant-level surgeons.

TOPICS

- Medial opening wedge high tibial osteotomy (HTO)
- Medial closing wedge distal femoral osteotomy (DFO)
- All using the Newclip® plating system
- Fluoroscopy will be available throughout the day to support procedural accuracy.

Venue

The course will take place at the new Ortho Surgical Skills Centre in Newbury

OVERVIEW

BASK conference isn't just about education - it's also an unparalleled opportunity for networking with peers and industry leaders.

With one of the largest memberships of specialist societies, BASK attracts the majority of the top industry suppliers who will be showcasing their latest products, services, and cutting-edge innovations. This is your chance to interact with key industry players, discover new technologies, and form connections that could impact your practice for years to come.

TOPICS

- BTP v Quads – harvesting and fixation?
- MPFL Injuries, reconstruction and rehabilitation
- Decision making in patella instability
- Management of PJI – Indications for a DAIR
- Pitfalls of “simple” revision
- Indications for patellofemoral joint replacements
- MPFL Injuries – reconstruction and rehabilitation
- Medial collateral ligament injuries and surgery
- Industry breakouts

Venue

BASK 2026 will travel across the border to Glasgow. Held at the SEC, a purpose built conference venue set along the banks of the River Clyde and a 5 minute walk from the city centre. There is a dedicated train station on site and Glasgow Airport is only 15 minutes away.
