WHAT MAKES US STAND OUT

Proud to Deliver Accredited Surgical Education

Clockwork Medical is accredited by the Royal College of Surgeons of England, recognised internationally as a gold standard in surgical education.

Confidence

For delegates, this means you can attend our meetings with full confidence that the content, faculty and delivery meet the highest professional standards. It also ensures that our events contribute meaningfully to your ongoing development and CPD requirements.

Trusted

For companies, accreditation offers powerful reassurance. You're aligning your brand with trusted, quality-assured education, endorsed by one of the most respected surgical institutions in the world.

Accreditation is only awarded following a thorough review of our programmes, facilities, and faculty. It's something we're proud of and something that sets our meetings apart.

Accredited by

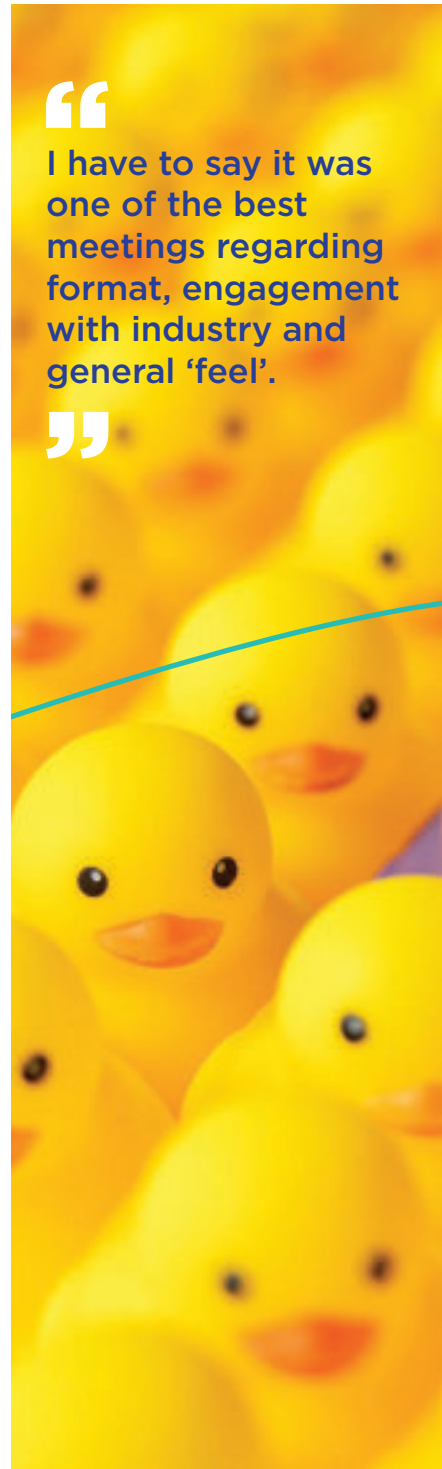

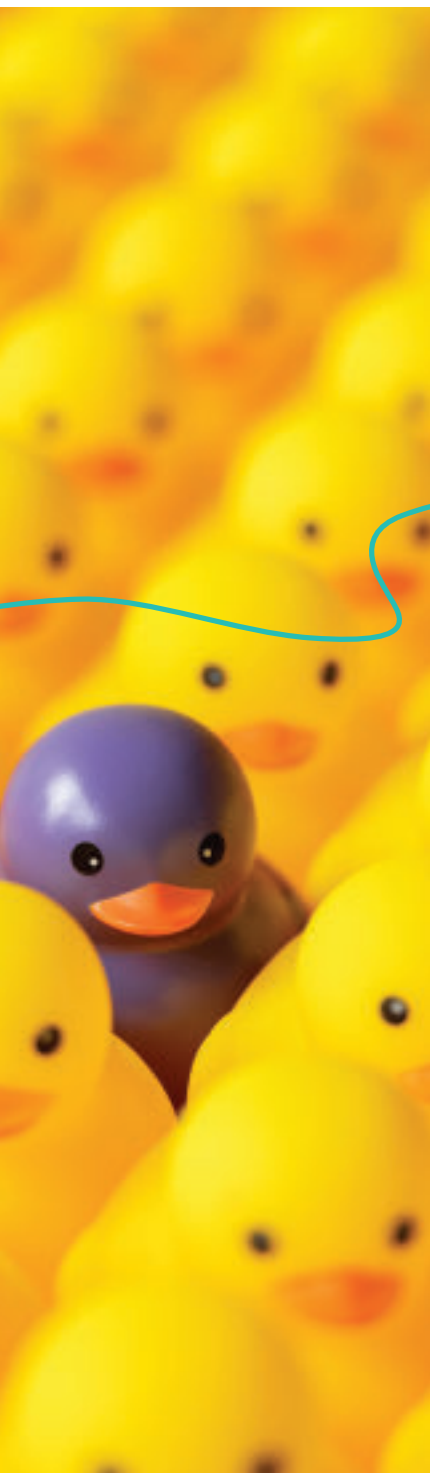

Royal College
of Surgeons
of England

“

I have to say it was one of the best meetings regarding format, engagement with industry and general ‘feel’.

14 - 15 May 2026, Harrogate

HARROGATE PARTIAL KNEE MEETING

OVERVIEW

This year's meeting will place particular emphasis on safe indications, reproducible surgical technique, and sustainable practice growth, drawing on current evidence, registry data and real-world experience.

Sessions will cover medial, lateral and patello-femoral arthroplasty, with clear guidance on patient selection, pre-operative assessment, intra-operative strategy and management of complications.

TOPICS

- _ Developing a high-quality partial knee service
- _ Registry-safe expansion of partial knee volumes
- _ Day-case pathways and enhanced recover
- _ The role of assistive technologies, including robotics
- _ Avoiding common pitfalls and revision scenarios

WRIGHTINGTON ACETABULAR & PERIPROSTHETIC FRACTURE SYMPOSIUM

OVERVIEW

A comprehensive two-day educational meeting focused on the contemporary management of complex hip reconstruction and periprosthetic fractures.

Delivered by an expert faculty with extensive experience in revision arthroplasty, this symposium combines evidence-based lectures, case-based discussions, and interactive industry sessions to provide a practical and clinically relevant learning experience.

HIGHLIGHTS

- Overview of PPF classification and its impact on treatment decisions
- Evidence-based debate: B2 fractures – fix vs replace
- Discussion on epidemiology and risk factors for peri-prosthetic fractures
- Techniques for revision surgery
- Case-based discussion groups
- Lectures on complex scenarios

COMPUTER ASSISTED ORTHOPAEDIC SURGERY

OVERVIEW

Following the success of the 2025 meeting, this course returns to Imperial College for 2026. CAOS is the UK's leading forum dedicated to exploring how computer-assisted surgery is transforming joint replacement practice.

The programme will examine established and emerging technologies, evolving alignment philosophies, and feature expert-led debates across both hip and knee replacement surgery.

2025 HIGHLIGHTS

- _ New and upcoming technologies
- _ Advancements in surgical navigation
- _ Artificial intelligence within orthopaedics
- _ Debates covering both hip and knee replacements
- _ Integrating new technologies into clinical practice

The Orthopaedic and Trauma Specialists Indemnity Scheme

Access to comprehensive
indemnity for all aspects of your
professional practice.

OTSIS is a not-for-profit mutual, owned and governed by its members. Membership of OTSIS is exclusively for Consultant Orthopaedic Surgeons, and membership provides you with access to highly competitive individually tailored professional indemnity insurance via our Brokers, M.I.C. Ltd.

Our partner insurance broker offers OTSIS scheme members an individual policy of insurance covering the costs and damages arising from clinical negligence claims, GMC and other professional accountability procedures, together with an expert medicolegal advisory service provided by specialist lawyers.

Seamless transfer from your current provider can be arranged, easily!

TESTIMONIALS

“ I have been a member of OTSIS for the last 4 years. My policy has reduced my costs by about 35% compared to my previous insurer. The renewal process is straightforward, and I am very happy with the level of cover provided. [Dated 2019] ”

Mr Simon Mellor
Consultant Orthopaedic Surgeon

“ I have been with OTSIS for 5 years. I have found the team from OTSIS's brokers approachable, available and helpful for all the queries I have had. I also have found them to be reasonable about my premiums. I would (and have) recommended them to other orthopaedic colleagues. [Dated 2019] ”

Mr Nicholas Bowman
Consultant Orthopaedic Surgeon

10 - 12 June 2026, London

ORTHOPAEDIC TRAUMA SOCIETY

OVERVIEW

The UK's foremost meeting on orthopaedic trauma looks to educate and inspire UK trauma surgeons with interactive lectures, debates, tips and tricks and case discussions, plus an opportunity to catch up with colleagues from around the country.

The 2026 meeting is now three days, with day one incorporating the NIHR OTS Musculoskeletal Trauma Trials Annual Meeting, essential for consultants working in trauma units or major trauma centres, as well as SAS doctors, trainees, and allied health professionals with an interest in trauma.

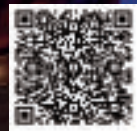

TOPICS

- _ Fracture related infection
- _ Fixing difficult distal radial fracture
- _ Optimising recovery following trauma
- _ Grit and resilience in orthopaedic surgeons

18 - 19 June 2026, Cardiff

BAJIS

OVERVIEW

The UK Bone and Joint Infection Society (BAJIS) As interest has grown there was enthusiasm to form a society for the full MDT involved in managing orthopaedic infection.

The congress theme is 'Think the unthinkable, Say the unsayable'. A challenge to faculty and delegates alike to look at what works and what doesn't work in orthopaedic infection. Periodically we need the freedom to challenge ourselves and look for options, solutions and innovative ideas that just might be the next big breakthrough?

2025 HIGHLIGHTS

- _ Organising referrals, are surgeons a pain?
- _ Yesterday, Today, Tomorrow – Key, Classic or Controversial papers – a discussion
- _ Guest Lecture: Patient centric value based healthcare
- _ Orthopaedic infection – a Cardiff perspective (Spinal, Paediatric, Hand and Microbiology)
- _ PJI – 10 errors in diagnostics

ONCOPLASTIC BREAST SURGERY TIG MEETING

OVERVIEW

The meeting itself will feature the latest advancements in oncoplastic breast surgery. Join us for an in-depth exploration of topics ranging from minimally invasive surgery and lymphatic reconstruction.

The meeting will feature the latest advancements in oncoplastic breast surgery. In-depth exploration of topics including minimally invasive surgery and lymphatic reconstruction a dynamic Oncoplastic MDT discussion, tackling complex cases and sharing valuable insights and a guest speaker tackling resilience in the NHS and how not just to survive but thrive.

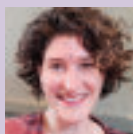

TOPICS

- _ Minimally invasive surgery
- _ Lymphatic reconstruction
- _ How to conserve the "unconservable"
- _ Dynamic Oncoplastic MDT discussions
- _ Tackling complex cases
- _ Resilience in the NHS and how to not just survive, but thrive

NORTHERN OSTEOTOMY CADAVERIC MASTERCLASS

OVERVIEW

This meeting provides an ideal opportunity for delegates to enhance their understanding of the indications, principles and methods of knee osteotomy.

With hands on experience in a cadaveric lab, delegates will build confidence in the practicalities of performing these procedures.

HIGHLIGHTS

- _ Dry and wet lab demonstrations of HTO & DFO
- _ Personalised planning for OAK 3D
- _ The role of osteotomy in articular cartilage repair
- _ Osteoarthritis and intra-articular injections

LEEDS ACUTE & INTENSIVE CARE CONFERENCE

“

The course made learning fun and it was good to hear from so many different speakers and their learning experience with good opportunity to ask questions.

”

LACTIC²

OVERVIEW

We are excited to present the third annual Leeds Acute & Intensive Care Conference. Aimed at intensive care, acute medicine and emergency medicine clinicians, this exceptional programme is designed to deliver high quality education on managing acutely unwell patients.

Following the resounding success of LACTIC2 2025, this year promises another outstanding array of experts in their field, providing specialist knowledge tailored into useful, pragmatic and practical information. Through a combination of lectures and small group workshops, delegates can expect to boost their knowledge and practical skills relevant to the management of the acutely unwell patient.

VENUE

The Queen's Hotel, Leeds

The hotel is located directly adjacent to Leeds rail station. Located adjacent to the railway station, accommodation is also available on site at the hotel.

2025 HIGHLIGHTS

- _ Advanced management of cardiogenic shock
- _ The haematologist's approach to thrombocytopenia
- _ High Consequence Infectious Disease
- _ Approach to empyema from both thoracic medicine and surgery specialists
- _ Practical skills relating to CT chest interpretation, advanced vascular access, CVVHDF and BIS

ENOVIS PARTIAL KNEE MEETING

OVERVIEW

This course is designed for surgeons and senior trainees who wish to learn more about Unicompartamental Knee Arthroplasty, with a view to introduce UKA to their practice, or increase UKA volume.

This interactive course includes presentations, debates, panel discussion and a patient session to provide an overview of the key principles and considerations for UKA. Delegates will have the opportunity to complete dry-bone workshops and learn surgical technique from experienced faculty members.

HIGHLIGHTS

- _ Brief History of UKA
- _ Indications and Surgical Approaches
- _ Crossfire Debate: Fixed vs. Mobile
- _ A Review of the Registries
- _ Unicompartamental Knee Arthroplasty vs. Total Knee Replacement
- _ Physica ZUK Long Term Clinical Results
- _ Drybone Workshops
- _ UKA Volumes and Learning Curves

BASK REVISION KNEE

OVERVIEW

The course details will be released in due course, last year's focused on Extensor Mechanism Management and Knee Instability and topics included DAIR, soft tissue defects, tips and tricks on implant extraction and complication management.

There will also be small group case discussions on a variety of cases involving revision knee. This is an interactive meeting and attendance from all the multidisciplinary team is crucial.

2025 HIGHLIGHTS

- _ Deep Dive sessions into Extensor Mechanism Management and Knee Instability
- _ Infection - PJI guidelines and pathways
- _ Bespoke sessions for AHPs, senior trainee and young consultants
- _ Stems, sleeves, cones & augments - indications, tips & tricks including removal
- _ Clinical cases
- _ Managing complications
- _ This course aims to be your annual CPD for revision knee surgery

WEXHAM CRUCIATE

OVERVIEW

The 18th biennial Wexham Cruciate Meeting will return to the Royal Ascot Conference centre.

This meeting is a practical approach to knee ligament surgery, looking at the latest techniques to repair or reconstruct injured knees in all groups of patients from the recreational sports person through to the professional elite athlete.

2025 HIGHLIGHTS

- _ Relevance of notch width and slope to ACL injury
- _ New concepts in research of knee biomechanics
- _ How Athletes tear their ACLs
- _ ACL Graft Choice Symposium - One Graft to Rule Them All
- _ Quadriceps tendon - Is this an everyday graft or just for revisions?
- _ Lateral extra-articular procedures (LEAPs) - 5 years on from the Stability Study

WRIGHTINGTON HIP & KNEE ARTHROPLASTY MEETING

OVERVIEW

The meeting will cover the scope of modern arthroplasty practice including management to delay or avoid arthroplasty, efficiency and ambulatory surgery, customisation, computer-aided planning and navigated surgery, challenges educating the next generation of surgeon, emerging technology in infection prevention and treatment, and reconstruction of challenging defects at revision.

Break-out sessions will give the opportunity for subspecialist groups to discuss issues particular to their interest and our industry partners will share their latest innovations.

HIGHLIGHTS

- _ Parallel hip & knee sessions
- _ Common challenges: AI in hip & knee arthroplasty
- _ Novel diagnostics & treatments in PJI
- _ Common challenges: periprosthetic fractures update
- _ Industry breakout sessions

& Power Up to Play

UK

OVERVIEW

The Bristol/Oxford Group Meeting has a new look for 2026. The meeting is going on tour to Stratford-upon-Avon, and is combining forces with the ever popular Power Up To Play rehabilitation meeting.

By uniting surgical and rehabilitation perspectives, the event aims to foster a more integrated approach to patient care. The day will consist of joint sessions covering all aspects of the patient treatment pathway and targeted breakout sessions for both surgeons and physiotherapists.

2025 HIGHLIGHTS

- _ Save the meniscus! The repair and reconstruction options
- _ Disease progression - additive partial or total knee
- _ Uniglide fixed vs Mobile RCT
- _ The latest in rehabilitation and knee research and techniques
- _ The return to sport after partial knees - should we encourage running
- _ Group discussion and faculty panels to answer all your questions
- _ ACLD - reconstruct or go fixed?

OVERVIEW

Following the success of the previous 4 meetings, AIOM returns in 2026. The feedback received from AI25 was fantastic, the basic structure for AI26 will be maintained but with new innovations and an enhanced programme to reflect how AI has developed in the last year.

TOPICS

- _ How AI can be used to enhance patient outcomes & experiences
- _ Using AI for predictive analysis such as implant longevity
- _ AI in surgical planning and medical imaging
- _ Interactive Hackathon
- _ Creating synergies between AI and orthopaedic surgeons
- _ One on one help sessions with experts
- _ Workshops and demonstrations
- _ Updates on innovations from Python, Microsoft, and Amazon.

4 - 5 December 2026, Basingstoke

BASINGSTOKE KNEE OSTEOTOMY

OVERVIEW

The Basingstoke Knee Osteotomy Masterclass will return once again building upon its heritage for being the most established knee osteotomy course in the UK.

BKOM26 aims to promote the principles of knee osteotomy surgery and allow patients to keep their own knee joint for longer. It is the only course nationally with live surgery allowing you an unprecedented exposure to this cornerstone of joint preservation surgery. BKOM26 helps surgeons seeking to explore and learn about basic knee osteotomy surgery and allow them to introduce it to their practice.

2025 HIGHLIGHTS

- _ Live surgery from theatre for both HTO and DFO
- _ Practical HTO and DFO sawbone workshops
- _ Planning for osteotomy surgery including software training
- _ Workshop discussion groups for HTO and DFO

BSCOS CURRENT CONCEPTS

OVERVIEW

This international meeting will bring together over 100 delegates, comprising consultant paediatric orthopaedic surgeons, fellows and senior trainees, allied health professionals including specialist nurses and physiotherapists, and members of industry.

The programme features distinguished speakers from Argentina, the United States, Switzerland, and the United Kingdom and offers comprehensive learning and insights into the latest technological advances and surgical techniques, and the current concepts in best practice in Paediatric Orthopaedics.

HIGHLIGHTS

- _ Intensive technical focus on surgical innovations and techniques
- _ Expert panel discussions on emerging technologies and best practice
- _ Interactive surgical demonstrations and workshops
- _ Dedicated sessions for new product demonstrations
- _ Product innovation show cases
- _ International faculty of renowned surgeons
